Soft Skills	Team Collaboration, Problem Solving, Creativity, Time Management

EXPERIENCE

Game Development Projects (Academic + Personal)

2023 – Present

- Created basic 2D games using Unity and C# focusing on player controls, scoring systems, and level design.
- Explored interactive UI design and incorporated simple physics for gameplay realism.
- Collaborated with peers for game concept creation and prototyping.

Website Design Intern

July 2024 – September 2024

OrbixSol – Rawalpindi, Pakistan

- Designed responsive websites using HTML5, CSS3, and Bootstrap.
- Customized WordPress themes using Elementor Pro, Divi, and WP Bakery.
- Optimized website performance using WP Rocket and improved SEO with Yoast.

ACHIEVEMENTS

Certificate of Completion – Week Competition

April 2025

Solutionwing.io – Islamabad, Pakistan

Recognized for creative thinking and effective implementation during the competition.

PROJECTS

2D Platformer Game (Unity, C#)

Built a side-scrolling game featuring character controls, collectibles, and score tracking.

Medicine Reminder App (Flutter)

Created a cross-platform app for scheduling reminders and medication tracking.

Weather Note Apps (.NET MAUI)

Designed utility apps with external API integration and modern UI design.

Hospital Management System (C#, SQL)

Developed a desktop application for handling patient records and billing processes.

Smart Watches E-commerce Website (Elementor Pro)

Developed a product-based responsive site using Elementor with optimized performance.

Screen Time Analysis (R)

Conducted data visualization and trend analysis using ggplot2 in R.
