ABOUT ME

Experienced Flutter Developer with 6+ months at 7 Skies Solutions, specializing in cross-platform mobile apps, UI/UX design, and Firebase integration. Skilled in Flutter, Dart, C++, Python, and REST APIs, with a strong background in real-time systems, authentication, and performance optimization. Additionally, gained SQL and Data Analysis experience at PARCO, where I worked with relational databases, performed data extraction and transformation, created reports, and delivered insights to support business decision-making. Holds a Bachelor's in Software Engineering (IUB) and has developed projects like ChatApp, School Management App, and BeautyBazzle, showcasing expertise in full-stack mobile development along with strong analytical and problem-solving skills.

WORK EXPERIENCE

7 skies Solutions – Bahawalpur, Pakistan

City: Bahawalpur | **Country:** Pakistan

Mobile application developer (Flutter)

[01/05/2024 – 30/11/2024]

- Designed and developed custom UI/UX, boosting user engagement and satisfaction.
- Built cross-platform apps with Flutter, ensuring compatibility and performance.
- Implemented secure authentication and authorization systems.
- Developed real-time notifications, improving user retention.
- Used Firebase for storage, retrieval, and real-time database management.
- Created custom animations and transitions for better user experience.
- Integrated REST APIs for dynamic data synchronization.
- Utilized C++ to optimize backend performance and handle intensive computations.
- Designed scalable app architecture for easy feature extensions.
- Collaborated with cross-functional teams to deliver high-quality apps on time.

 **Pak Arab Oil Refinery (PARCO) – Qasba Gujrat, Pakistan**

City: Qasba Gujrat | **Country:** Pakistan

Data Analysis

[01/01/2025 – 01/04/2025]

- Maintain and monitor servers, networks, and data centers supporting electricity distribution operations.
- Provide technical support to employees (field staff, engineers, billing teams).
- Manage IT service desk (ticketing systems like ServiceNow, Jira) for issue resolution.
- Generate IT audit reports for internal and regulatory bodies.
- Conduct training programs for employees on new IT systems.
