September 2023 – May 2024

Tasks: I worked as a UI/UX designer, creating easy-to-use and visually appealing designs for clients.

• Texas Tech University (United States)-Department of Computer Science

Remote

Course Assistant (Human Computer Interaction)

August 2024 – October 2024

Tasks: My responsibility was to create course content, prepare presentations, and help students learn Figma basics.

• Nurvotech

Remote

Product Designer (Project-Based)

July 2024 – November 2024

Tasks: At Nurvotech, I worked on the Humsaya app and a Wallet app, focusing on UI/UX design.

• UXWOW

Remote

Visual Designer (Contract-Based)

December 2025 - February 2025

Tasks: At UXWOW, I worked on various client projects and designed dashboards across different industries.

• Sequel Technologies & Practice EHR

Onsite

UI-UX & Graphic Designer

March 2025 - Present

About: It is a product-based company where I worked on graphics and product UI design.

HONORS AND ACHIEVEMENTS

Google Generation Scholar 2023 - One of the 55 recipients among the pool of 3000 applications across Asia Pacific Region (APAC) of the prestigious Google Scholarship for Women in Computer Science.

PEC Final Year Design Project Financing (2023-2024) - Our project " The Lawyers Portal: Automation of Court Cases Management", received 1 lac funding through PEC's final year design project financing.

Connected Pakistan Conference (CPC) 21' - The CPC 21' was one of the greatest experiences I encountered in my life as an ambassador. This was among the Pakistan's biggest tech and Freelancing Conference.

Future Fest 2022 - This event brought Pakistan's top tech startups, investors, innovators, and technology professionals.

AWS Community Day 2021 - One of the two ambassadors selected from all the campuses of FJWU to celebrate the AWS community Day Pakistan.

Metrix Summit 2022 - It was a three-day conference aimed at bringing the attention of youth towards the rise and importance of Technology in today's world.

IEEE (SAC Leadership Summit 2021) - It focuses on developing leadership skills and challenging participants to be Role Models on Campus and in the Community.

AI InnoFest 2024 - I participated in showcasing our FYP project at the Center of Excellence in Artificial Intelligence (CoE-AI) event hosted by Bahria University, Islamabad.

Graphic Designer Team Lead at Zindigi, powered by JS Bank - Received a certificate for outstanding performance, teamwork, and exceptional leadership

PROJECTS

WakeelNaama App (Final Year Project) - Designed its UI/UX and developed in Flutter with modules for time prediction, lawyer recommendation, and chatbot.

Wallet App - I designed the Figma prototype for a wallet app focused on managing daily expenses and income tracking.

Humsaya.pk - I designed the Figma prototype for Humsaya.pk, an app where users can buy, sell, find grocery items, and offer services or hire clients within their neighborhood.

Meadows Place Associates - Designed a complete healthcare website in Figma, highlighting virtual care services with a patient-focused approach.

Practice EHR - A healthcare product where I worked on various pages and contributed to the complete redesign of its UI.

Flower Recognition System using CNN - Implemented by developing a convolutional neural network which is a very efficient model for image classification.

Predicting House Prices - The project aims to predict future house prices by analyzing and visualizing a dataset.

2048 Game - Main purpose of this game is to connect numbered tiles on a grid to produce a tile with the number 2048.

COURSES

- **Basic AI Course:** Plus, W – Japanese Company based in NUST System
- **Adobe Photoshop CC Fundamentals and Essentials Training:** Coursera

SKILLS SUMMARY

- **Languages:** C++, Python, Java, SQL, MATLAB.
- **Tools:** Jupyter Notebook, Microsoft SQL Server Management Studio, Eclipse, Cisco Packet Tracer, MATLAB, SQLiteStudio, Adobe Illustrator Flutter, Figma.
- **Interests:** User Experience Design, User Interface Design, Product Design, Prototyping, and Usability Testing.
- **Soft-Skills:** Leadership, Problem-Solving, Time-Management, Teamwork, and Effective Communication Skills.

EXTRA-CURRICULAR ACTIVITIES

- **The Volunteers Society:** Its vision behind this organization and social work is to see the world turning to positivity and people living for others more than themselves.
- **Adal Foundation:** It's a nonprofit voluntary social development organization in Pakistan working with an aim to provide health and education facilities to less privileged people of the society.
