Summary

Dedicated BS Computer Science student at the University of Chakwal with a passion for AI-driven solutions and software development. Proven leadership in team environments, problem-solving expertise, and hands-on experience in app development using Flutter and Java. Currently developing a safety app with AI features for my Final Year Project (FYP), combining technical skills with a commitment to impactful innovation.

Education

BS Computer Science

University of Chakwal

- Final semester, CGPA: 3.62/4.0
- FYP: AI-powered University Safe Campus App using Flutter, Firebase & Chatbot

Intermediate (ICS)

BISE Rawalpindi – 1006 / 1100

Matriculation (Computer Science)

BISE Rawalpindi – 960 / 1100

Experience

Volunteer Coding Instructor

Community Workshops, Chakwal

- Taught Python and Flutter basics to students
- Led mini-projects and promoted digital literacy

Part-Time School Teacher

Private School, Chakwal

- Taught Computer Science and Math
- Designed interactive lessons to boost coding interest

University Projects

- FYP: Campus safety app with AI chatbot, tracking, and Firebase
- Built an object detection app using TensorFlow
- Created a Shopify clone with JS and Firebase
- Developed a vehicle tracker using Java & GPS

Interest/Hobbies

- AI & teaching
- Theater & painting
- Cricket & badminton
- Baking
